Empowering Businesses Through Secure Cloud, Automation, and AI

Company Overview

Elevate Cyber Solutions is a modern cloud and cybersecurity consultancy that helps organizations accelerate digital transformation with confidence. We specialize in cloud infrastructure, DevOps automation, cybersecurity, and AI-driven process optimization — empowering businesses to enhance productivity, reduce costs, and strengthen their security posture.

Founded and led by Bismark Castilla, a Cloud Solutions Expert with over 15 years of experience across system administration, software development, and cybersecurity, Elevate Cyber Solutions bridges technical expertise with business strategy to deliver end-to-end, scalable solutions for clients worldwide.

Mission

To elevate organizations through secure, intelligent, and automated cloud solutions that enable innovation, agility, and long-term resilience.

Vision

To be a trusted global partner in cloud and cybersecurity transformation, recognized for technical mastery, reliability, and measurable business impact.

Core Values

- Integrity: We operate with honesty and transparency in every engagement.
- Excellence: We deliver high-quality, future-ready solutions that drive measurable results.
- Innovation: We continuously explore new technologies to enhance our clients' capabilities.
- Security First: We embed protection and compliance at every layer.
- Collaboration: We believe success is built through strong partnerships and shared goals.

Leadership

Bismark Castilla — Founder & Principal Cloud Architect

A dedicated and versatile Cloud Solutions Expert, Bismark brings over 15 years of experience in IT, spanning infrastructure, DevOps, and cybersecurity. His extensive certifications and practical leadership in multi-cloud environments enable clients to modernize their operations securely and efficiently.

- Professional Highlights:
- Deep experience designing, deploying, and managing cloud solutions on Azure, AWS, and GCP.
- Proven ability to integrate DevOps automation, infrastructure-as-code, and CI/CD pipelines to accelerate delivery.
- Expertise in cybersecurity, compliance, and ethical hacking to safeguard enterprise workloads.
- Skilled in AI automation using tools such as n8n, intelligent agents, and workflow orchestration to eliminate repetitive tasks and improve operational efficiency.
- Known for fostering collaboration between business and technology teams to deliver sustainable, cost-effective solutions.

Certifications

- Bachelor's Degree in Computer Science Engineering
- Microsoft Certified: Azure Solutions Architect Expert
- Microsoft Certified: Azure DevOps Engineer Expert
- Microsoft Certified: Azure Security Engineer Associate
- Microsoft Certified: Azure Administrator Associate
- Certified Ethical Hacker (CEH)
- ITIL® 4 Foundation
- Oracle Cloud Infrastructure Foundations Associate
- LFS169: Introduction to GitOps

Our Services

Service Area	Description
Cloud Architecture & Migration	Design, build, and migrate secure, scalable, and cost-optimized environments across Azure, AWS, and GCP.
Cybersecurity & Compliance	Implement Zero Trust, IAM, vulnerability management, and compliance frameworks (NIST, ISO, CIS).
DevOps & Automation	Deploy CI/CD pipelines, automate infrastructure with Terraform and Ansible,

and enable agile delivery.

AI Solutions & Automation Agents	Develop and integrate AI-driven automation using n8n and custom intelligent agents to eliminate repetitive workflows and improve productivity.
Managed Cloud & Security Services	Continuous monitoring, cost optimization, backup, DR, and cloud operations support.
Software Development & Integration	Develop secure applications and integrate modern APIs, microservices, and containerized workloads.
Telecom & Enterprise Infrastructure	Deploy and manage VoIP, SIP routing, and unified communication systems for enterprise-grade reliability.

Industries We Serve

- Information Technology & SaaS
- Telecommunications
- Financial Services
- Logistics & Transportation
- Manufacturing
- Public Sector

Why Partner with Elevate Cyber Solutions

- Proven multi-cloud expertise with Microsoft, AWS, and Google Cloud.
- Integrated approach combining security, automation, and innovation.
- AI-enhanced workflows that drive measurable efficiency gains.
- Hands-on experience in enterprise and hybrid environments.
- Continuous learning to stay ahead of industry trends, emerging threats, and evolving cloud technologies.
